Use ad aerografo / Airbrush Thinner and Cleaner

How to use Lifecolor with the airbrush.

IT. Agitare bene i colori prima dell'uso. Diluire la vernice Lifecolor con un rapporto di 1:1 circa. Mescolare accuratamente la miscela prima di utilizzare l'aerografo.

Se serve, aggiungere poche gocce di diluente o di colore alla volta fino ad ottenere la miscela ottimale.

EN. Shake well before using. Dilute Lifecolor paints with 1:1 ratio approx. Thoroughly mix the mixture before using the airbrush. If necessary, add a few drops of thinner or color at a time until you get the optimal mixture.
